MEMORANDUM FOR: Deputy Director, DPD-DD/P

25X1A9a SUBJECT : Recommendations Resulting from Meeting of [REDACTED]
25X1A9a [REDACTED] with [REDACTED] of Pratt & Whitney
25X1A5a1 on Growth of J-57

REFERENCE : Memorandum for DD/P, dated 21 January 1959, from
Deputy Director, DPD-DD/P, same subject (CHAL-
0533)

I have not formally concurred in the referenced document because as
I explained to you on the phone, I believe it has been overtaken by events. The
proposal to use the J-75 in the U-2 is by all odds the most promising product
improvement possibly that has yet appeared. I hope that [REDACTED] with 25X1A9a
[REDACTED] help will pursue this with all possible speed.
